

GRAND POWER P24 & LP24

The P24, P24 Tactical and LP24 are brand new offerings by GRAND POWER

GRAND POWER P24 can boast a very slim profile of just 30mm, which is ideal for concealed carry and multitude of modern features.

The pistol is offered in several variants, the P24 is a duty sized model, P24 Tactical is the same size as P24, but comes equipped with threaded barrel and suppressor height sights, while the LP24 is a longer version offering superb accuracy and performance with longer barrel and sight radius. P24 series are striker-fired, semi-automatic pistols, featuring a browning link-less locking system with barrel locking into the ejection port, which offers robust and reliable operation as well as ease of use and maintenance.

Also present are advanced features such as fully ambidextrous controls, red-dot ready slide (with four base plates included in the box) and three interchangeable backstraps that can comfortably accommodate any hand.

The P24 is also equipped with firing pin and trigger safety, loaded chamber indicator, striker indicator, crisp single action trigger and is accepting popular Glock* pattern magazines.
